Subject: For the Replacement of the Computer.

Dear Sirs:

Most humbly and respectfully it is deeply
regretted that a brand new computer bought
from your firm^{of} Bill No. 0428, Invoice vide 313

Payment Receipt No. 089 worth ₹ 25,000 on 05, February 2016 is not working properly.

All the parts of computer are of Samsung Company. The buttons of keyboard had become tight. The computer takes a lot of time in starting up. If more than two programmes are run together it gets hanged. Moreover the display and graphics quality is going darkening day by day. The speakers give blurr and unclear sound.

So, I request you to replace the computer as soon as possible, as it is in guarantee period.

Please get enclosed herewith the Xerox copy of Bills & Invoices for your perusal.

Thanking you

Sincerely yours
R. K. Jain

"The Role of library in Schools"

Good Morning!

Hon'ble Chief Guest, respected principal and staff, my dear brothers and sisters and all the presentees.

I Virat Jain, XII Commerce, is highly elated in giving you a speech on 'The Role of library in Schools'.

Mao

Modern world is of Education and Development. Each and Every person is engaged in collecting information and news from all sides. In this context, School Libraries would be proved beneficial and supportive for the school going students.

Libraries are the 'storehouses of knowledge'. They are a collective stock of books, magazines, newspapers, novels etc. in that best and systematic way which could be helpful for the students. Libraries serve different purposes for different students. Library is a means of gathering information for one and a joy (past time) for another. It is a source of entertain.

ment and relief for some students.

Library prevents a student from becoming a book-centered. It provides a student the vivid impression of the latest news and affairs. It keeps a student updated. Many moral giving, sensitive and practical experience books prove helpful for the student in developing his mind from depression. Through the means of library a student can keep a watchdog on his/her surrounding.

So, library is a source of education and every school must have a library.

Thanks for the Co-operation.

Thank You.

Kothamangalam Subbu was included in the story department of Gemini Studios. He was No. 2 in Gemini Studios.

Although he had not acquired a high quality ^{formal} education yet because of his virtues, intellectuality and loyalty he was popular and important in Gemini Studios. He had an intimate connection with the Boss S.S. Vasan.

Moreover because of his following qualities he was endeared and popular in Gemini Studios:

(i) A Creative Personality:-

Subbu was a creative and innovative personality. He had a sharp and creative mind. He was tailor-made for films.

He was only who gave direction and definition to Gemini Studios in its Golden Period. Film making would become easy with a man like Subbu.

Once he helped the producer by giving him 14 alternatives for shooting a shot of rat & tigress fighting underwater. In this way he was a repartee.

(ii) A Societal and Charitable Person:-

Subbu's home always have a residence of many persons whom he supports financially. He was a improvident and spendthrift person. He always helped needies and his friend.

(iii) A Multi-Faceted Person:-

Subbu was a multi-talented person. He was a actor cum-novelist cum poet.

In Gemini Studios he never aspired for lead roles in films but whatever subsidiary role he was given he performed it better than the supposed main actor.

As a novelist, he wrote a sprawling novel 'Billana Mohanamballa' with deeply etched characters.

He wrote many poems for the folk refrain and diction.

In this way Subbu was an important part of Gemini Studios.

Author 'Iishani Doshi' says that 'Antarctica is the place to understand the earth's present, past and future'.

By going to Antarctica we know that 'where we had come from (past) and where we to lead in future'.

In Antarctica we come to know about the Cordilleran folds and Pre-Cambrian granite shields and the formation of earth. Before 650 millions ago the whole world was a giant amalgamated southern supercontinent - Gondwana. At their time temperature was high and climate was warmer, there was a wide variety of flora & fauna (past)

but after the extinction of Dinosaurs and generation of mammals it broke into pieces and the formed the globe we know (present).

Moreover when India moved northward towards Asia and collide it it buckled its crust & formed Himalaya (Present & Past).

Also the drifting off of North America to join South America leads to creation of Drake Passage through which cold circumpolar current flows. All this result in formation of Antarctica as a frigid and desolate continent.

... In this way, we get a long account of past and present. And if we were to create a rickshaws on earth would damage it, it would lead to global warming and melting of glaciers and ice-shelves, the future results will be catastrophic.
