Sub - Irregular Supply of electricity
Sir,

With due respect I bring your kind attention towards the irregular electricity supply in our locality. Despite of several complaints and reminders there has been no improve in electricity supply. It is the as it was.

The electricity is supplied for a few hours. We have ~~to~~ celebrated big festivals like Diwali and Christmas in darkness. We suffer due to irregular electricity supply during our examinations. The electricity goes not only in day but also in night so there is a great danger of thefts and accident in our locality. Due to breakdown of power the water supply also stops.

Will the authorities concerned take some steps to reduce our difficulties and earn a good name for the department?

I hope you will look into the matter and do needful.
Yours faithfully
Mahesh Gupta

"Pollution"

Today man has interfered with the nature too much as the result our environment has become polluted. There are many kinds of pollution such as-

Air Pollution- Air pollution is mostly caused by the smoke coming out of the vehicles and chimney of industries. It causes many problems like - headache, lungs related problem, eye burning and asthma.

Water Pollution- The owners of the industries dump their waste into the rivers and onto the surface of the earth.

Noise Pollution- In large cities the roar of vehicles is unbearable. Noise pollution causes dangerous diseases.

So there should be industrialization. We should not dump our waste on to the roads. We should harmony with nature to keep our environment pollution free. We should minimize the use of natural resources in order to keep our animal there pollution free.

The families who are living Seemalvi, a place situated on the periphery of Delhi are the sarvatters. They had come from Bangladesh due to natural disaster in 1971. They do not have the running of water. They are living there in the half built homes with the roof of tin and tarpulin. They are living in utterly unhygienic conditions. These people do not have their identity but they have their ration card and their names into the voter list. The only way of survival in the Seemalvi is ragpicking. Children engage in this work before know it's filth. Ragpicking is a fine art there. Their existence depend on the waste. For children the garbage is a wrapped in wonder as sometimes they find precious in it. But for the elders it is a meaning of their life.

It is right that world's history is trapped into the Antarctica. It is a only place in the world that never sustained human beings. Here we can study earth's present, past and future. The 90% value of the total ice is stored here. Here we can study earth's past because it belonged to a remote past when it was part of Gondwana island. At that time the climate of the place was much warmer that it has hosted a huge variety of flora and fauna. With the coming of the mammals the huge animals like the - dinosaurs and woolly rhinos disappeared. We can study here also.
